WELBY RETURNS TO RIO GRANDE

Was Former General Superintendent.

Announcement From Denver Caused Pleasure to Many Old Friends.

First Came to Rio Grande 23 Years Ago as Clerk, and, Barring Three Years, Has Remained.

DENVER, Nov. 25 .- Arthur Earl Welby was today appointed general superinrendent of the Rio Grande Western, to succeed Joseph H. Young, resigned. Weiby formerly held the position to which he is now re-appointed, but retired about three years ago and has since been flying on a ranch in southern California,

Mr. Welby is now living at his ranch near Willows, Cal., where he has been since his return from Peru, where he

since his return from Peru, where he passed a year as manager of the Cerro he Pasco company. When the news was amounced in railroad circles yesterday, Rio Grande officials generally were very much pleased and much laterest was taken in the brief telegram. He has a great many friends here who will be glad to welcome him back to Salt Lake after his three years absence. Mr. Welby was first appointed superintendent of the Rio Grande Western in 1890, and two years later he was made general superintendent. Before coming to the Western he was chief clerk in the office of the general manager of the Denver & Rio Grande at Denver. He was born in South Africa, February 5, 1855, and entered railway service in 1872, since which time he has passed through all the various grades in the operating department of Canadian and American lines, intil he came to the Denver & Rio Grande in 1811.

MAPLE LEAF AGAIN.

Union Pacific Surely Has the System

CHICAGO, Nov. 25 .- The report that the Union Pacific has purchased the Chicago Great Western was resterated this afterstream was restorated this afterbeen with such positiveness and circumstantial evidence in its favor that it received general acceptance. The deal which
has been pending for some time was said
to have been closed, and the Chicago
Great Western will shortly lose its identity as an independent road and either
be wholly absorbed by the Union Factio
itself or distributed piece to a smoog the
western connections of this system. itself or distributed plees to a among the western connections of the system. One report has it that the things Great Western will be divided between the Chicago & Northwestern and the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul systems, both of which have for several years been close connections of the Union Pacific. The Northwestern, it is said, will take that portion of the Maple Leaf which runs from Marshalitown, Ia. to Kanasa City, and the Milwaukee & St. Paul will take the St. Paul end of the line.

There is another view of the case, however, which is that the Union Pacific will keep the Maple Leaf and operate it as the eastern end of its own system. It will, it is declared, give the Union Pacific a very good outlet from Omaha to Chicago and the short line from Omaha to St. Paul.

NOVEMBER BREAKING RECORD. Short Line Gross Will Be Greatest in Read's History.

Heretofore the month of October has nlways been the big month of each year th Oregon Short Line gross carnings. Last October showed the greatest in the history of the road, but, strange to say, this month, November, will beat October and will show the greatest gross yet known to the big system for any one month. The figures include a great decrease in mileage operated, but this was explained some weeks ago by showing that the mileage decreased by the transfer to the Salt Lake Route of all trackage south of this city, and that mileage had, as a local proposition, not been productive. So this shormous increase is due to the main line travel and the natural development of Short Line territory.

That November, however, should break the record is something astonishing even to railroad men in Oregon Short Line gross carnings. Last

The Schiff special has arrived in San Francisco.

That Maple Leaf deal scems to be wor-rying the newspapers considerably. The whole idea is merely to remove a certain factor which cannot be brought into

The Short Line is already placing a sarrier to the entrance to Boise by the Bock Island. The line new extends about three miles beyond Boise station, and a further extension will at once be made of three miles further. This will reach an three miles further. This will reach an important lumber camp and will at the same time take up a very good route into the city. By the time the Rock Island 5613 to the State line the Short Line will have branches built at many strategic points which would be of value to the new road.

Southern Pacific and Union Pacific stocks continue to be in demand. Many changes are looked for in the text sixty days.

Charles Hooper came in from Denyer Peaterday with the Chinese Honeymoon people. They had a fine trip through the Sometra

The year will not show any great amount of new mileage in this State

Mr. Young takes charge at Denver and Mr. Welby comes to Salt Lake next

The continued fine weather has turned thousands into the railroad treasuries. All the operating and engineering of-ficials of the Salt Lake Routo went to the front yesterday.
